

MINT mapping tool

Nikolaos Simou, NTUA

MINT

- provides users the ability to perform a mapping of their own metadata schemas to reference domain models
 - follows a typical web based architecture
 - was developed for ATHENA, but it is currently used for EUScreen, CARARE, Judaica, ECLAP, DCA, Linked Heritage, and EuropeanaPhotography
-

MINT2 – Instance for AthenaPlus

- <http://mint-projects.image.ntua.gr/athenaplus>

The screenshot shows a web interface for the 'MINT Ingestion Server - AthenaPlus'. It features a login form with two input fields: 'Username' containing the text 'marzia' and 'Password' with masked characters (dots). Below the password field are two buttons labeled 'Submit' and 'Reset'. At the bottom of the form, there are two links: '[I want to register](#)' and '[I forgot my login/password](#)'.

Rights assignment to user

The screenshot shows a login form for the MINT Ingestion Server - AthenaPlus. The form is enclosed in a light gray border. At the top left of the form is a small blue square icon with a white 'd' shape. To its right is the title 'MINT Ingestion Server - AthenaPlus' in bold black text. Below the title are two input fields. The first is labeled 'Username:' and contains the text 'marzia'. The second is labeled 'Password:' and contains seven black dots. Below these fields are two gray buttons: 'Submit' and 'Reset'. Below the buttons are two blue underlined links: 'I want to register' and 'I forgot my login/password'.

User roles

- **Administrator:** this user can create/update/delete users and children organizations for the organization he is administering. He can also perform uploads and all available data handling functions provided by the system.
 - **Annotator:** this user can upload data for his/her organization (and any children organizations) and perform all available data handling functions (view items, delete items, mappings etc) provided by the system, apart from final publishing of data.
 - **Annotator & Publisher:** this user has all the rights of an annotator as well as rights to perform final publishing of data.
 - **Data Viewer:** this user only has viewing rights for his organization
 - **No role:** A user that has registered for an organization but has not yet been assigned any rights.
-

Define items

The screenshot displays the 'Define Items' web interface. At the top, a navigation bar includes a home icon, a 'Define Items' tab, and a 'Dataset Options' section with icons for a tree, a close button, and a refresh button. Below the navigation bar, the main content area is titled 'AthenaPlus.zip' and shows a status message: 'Status: Data Upload successful'. A sidebar on the left contains a menu with the following items: 'Define Items' (highlighted with a blue bar and a right-pointing arrow), 'Dataset Statistics' (with a bar chart icon and a right-pointing arrow), 'Show log' (with a right-pointing arrow), 'Delete Data Upload' (with a trash icon and a right-pointing arrow), and 'Downloads' (with a right-pointing arrow). The central workspace is divided into three main sections. On the left is a vertical tree view with a search bar at the top and a single node labeled 'tns:ImageMetadata'. On the right are three configuration boxes: 'Item Level' (with instructions to define the root node), 'Item Label' (with instructions to define the item name), and 'Item Id' (with instructions to define the item native id). At the bottom right of the workspace, there are two buttons: 'Reset all' (highlighted in orange) and 'Done'.

Concatenation

The screenshot displays the ATHENA PLUS Advanced Mapping interface. At the top, the text "@ ✓ ☆ lido:appellationValue" is shown, with a green plus icon and a question mark icon to its right. Below this, a rule is defined within a light gray box. The rule starts with an "if" condition, followed by a green plus icon and a red minus icon. The main part of the rule is "Collection for Ancient Greece:". Below this, there is a function "f" followed by an equals sign, a green plus icon, a red minus icon, and the text "tns:Title".

Output:  Add

| Input | Output | |
|-----------------|--------------------------|---|
| Petros Katsaros | Petros Emmanuel Katsaros |  |

The screenshot displays the LIDO editor interface. The top bar shows the title 'Mapping: EuPhotoSeminar (LIDO 1.0)' and the 'appellationValue functions' tab. The left sidebar contains a tree view with the following structure:

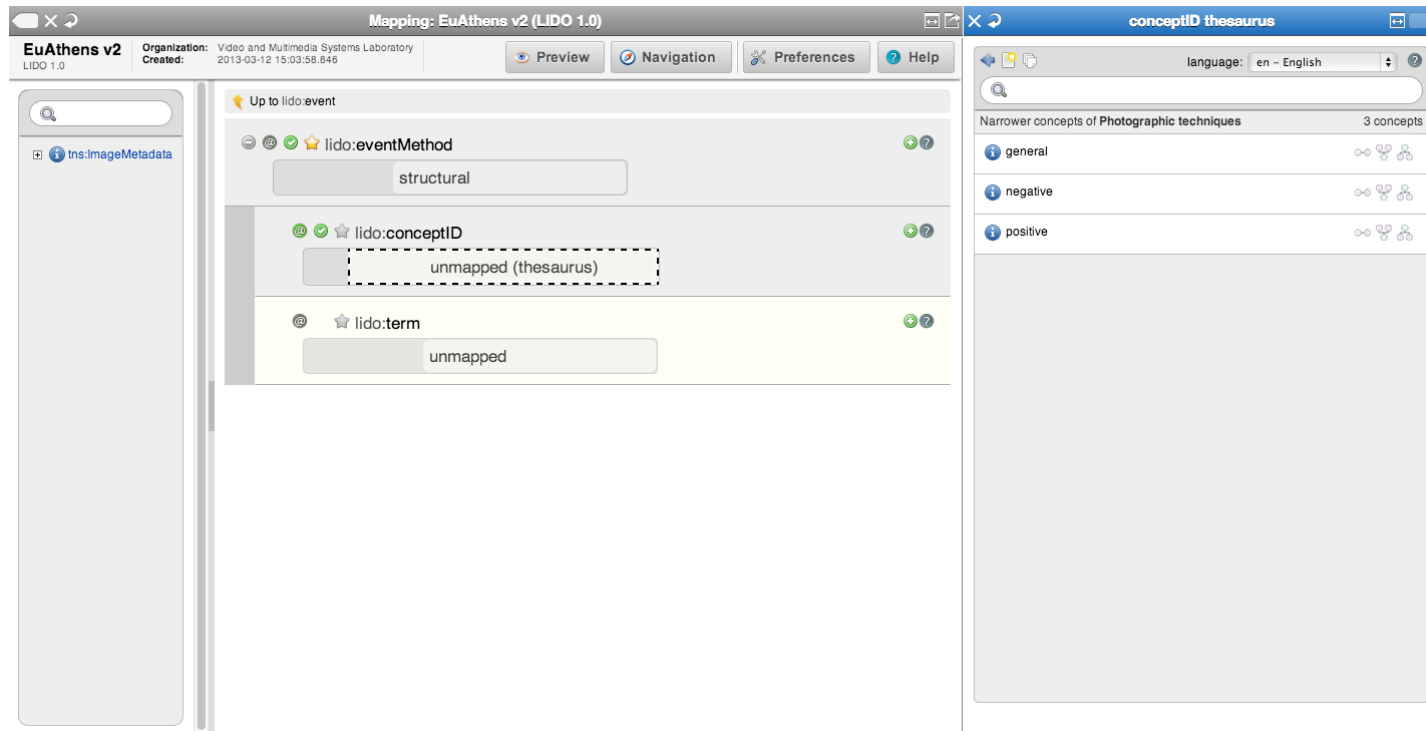

- lido:appellationValue
 - tns:Copyright

The main workspace shows the configuration for the 'appellationValue' function. The 'Function' dropdown is set to 'Substring'. The 'string from index' is set to '0' and the 'to index' is set to '14'. The 'Apply changes' button is visible. Below the configuration, a table displays the results of the function:

| Value | Result |
|--------------------|----------------|
| Ancient-Greece.org | Ancient-Greece |

At the bottom of the workspace, there are navigation buttons: 'Prev', '1', and 'Next'.

Thesaurus Mapping

The screenshot displays the 'Mapping: EuAthens v2 (LIDO 1.0)' interface, which is used for mapping LIDO data to a thesaurus. The interface is divided into two main panels.

Left Panel (Mapping Editor):

- Header:** 'EuAthens v2 LIDO 1.0' and 'Organization: Video and Multimedia Systems Laboratory Created: 2013-03-12 15:03:58.846'. Buttons for 'Preview', 'Navigation', 'Preferences', and 'Help' are present.
- Search Bar:** A search bar with the text 'ins:ImageMetadata'.
- Mapping List:**
 - Up to lido:event**
 - lido:eventMethod** (checked) with a value of 'structural'.
 - lido:conceptID** (checked) with a value of 'unmapped (thesaurus)' (highlighted with a dashed border).
 - lido:term** (checked) with a value of 'unmapped'.

Right Panel (conceptID thesaurus):

- Language:** 'en - English'.
- Search Bar:** A search bar.
- Results:** 'Narrower concepts of Photographic techniques' (3 concepts).
 - general** (checked)
 - negative** (checked)
 - positive** (checked)
