CityQuest, SchoolTrip, Movio APP, Movio Hub New tools for reusing digital cultural heritage

Barbara Dierickx (PACKED) | Sam H. Minelli (META)

Conference Rome – October 21 2015

- **SchoolTrip** (PACKED vzw) is a tool for planning a school trip.
- Through an interface, the teacher provides some parameters and creates the trip framework.
- Students then collect the necessary travel information from a-z.
- The result is a document that can be taken along as an travel journal.

The screenshot shows the 'Schooltrip' web application. At the top, there's a navigation bar with 'Home', 'About', 'Links', and a 'Mr. Teacher' button. The main content area is titled 'Footballcamp 2014' and displays a list of dates from 22/08/2014 to 27/08/2014. On the right, a detailed view for the date 22/08/2014 is shown, featuring a 'STADION CAMP NOU' section with a cityscape image and placeholder text. Below this, there are more sections with similar content, including a 'Road Map' button. At the bottom, there are 'Preview', 'Print', and 'Save as PDF' buttons. The footer includes the URL 'info@packed.be', the copyright notice 'Copyright © 2014 PACKED', and social media icons for Twitter and Facebook.

SchoolTrip was designed to

- Familiarise the students with all preparatory work & aspects of creating such trip
- Offer them links to sources of information which may differ from Google
- Present a new tool with unknown functionalities they need to learn
- Facilitate the experience of the cultural heritage they encounter during the trip, by already having read about it whilst preparing the trip

SchoolTrip features

- Programme for download
- Available under MIT license, including installation instructions on GitHub
- Possibility to add own media(content) or links via Europeana API
- Work individually or in groups
- Planning a to z, including practical organisation of things and trip
- Digital heritage as part of a bigger picture
- Installation instructions available on <http://wiki.athenaplus.eu/index.php/SchoolTrip>

I have found one where you can sit but it is more like a restaurant -> http://caat.be/houtsiplou/?page_id=13 shall I include it too or did you find any better tips?

**Bert De Groote**

716/02/2015 08:02:58

It seems like al these fries-places are very little also from what I can see through an images web search. Is it a custom to just be standing up while eating? We've been up all day!! :)

**Louise Deblauwe**

816/02/2015 08:02:09

Yes I have been looking at the NMBS-website but it is not very clear ... the English section of the website is very limited. I posted some stuff already though

**Mark Stevens**

516/02/2015 08:02:43

I've started on the section of the Parlementatrium. I found everything so I marked it as complete. Does anyone know about how we're going to get to Bruges?

The capital of Europe

Tilburg - Brussels

From

16/02/2015

Untill

19/02/2015

Brussels is the capital of Belgium. Centrally located in Europe, it is often referred to as 'the capital of Europe'. This name is enforced by the European presence in the city. The European Parliament, European Commission and several other policy bodies have their office in Brussels. During this trip we will discover the city, its history and cultural sites, and the European presence.

Records

Parlementarium ▾

The Parlementarium is the European Parliament Visitors' centre. Prepare a visit and find the necessary information.

The programme should last 1/2 day. Is it possible to visit on a Monday? Look whether there are interactive possibilities (i.e. use of tablet in the exhibition)

Info page on Parlementarium by the EU Parliament

- **CityQuest** (PACKED vzw) is a tool with which you can create a search/quest based on QR codes: guide your visitors through the city based on cryptic descriptions.
- Designed for institutions with strong collection link to locality (e.g. city archive, regional museum, ...)

CityQuest features:

- Free online interface (cityquest.be) and app (for Apple and Android)
- Create the Quest online and generate the QR-codes that are linked with every location
- Publish the Quest and enter the code in the app: multiple Quests only require one same (empty) app
- Can be played without internet connection on tablet or smartphone
- Registration of time, number of items found, number of hints used
- Code available on GitHub
- Installation instructions on <http://wiki.athenaplus.eu/index.php/CityQuest>

[Sign In](#)

Create your own city quest in 5 minutes!

City Quest allows you to easily create a quest online, and publish an iPad app as final result.

Send your visitors around the city to discover items from your collection and the locations they are connected to.

[Register now](#)

City Quest is an open source application, licensed under [JORIS?].

It was created by **PACKED vzw** in the framework of the CIP ICT-PSP **AthenaPlus** project.

 Co-funded by the European Union.

ARTE E

DONNE

Percorsi tematici

La memoria moderna

La Grande Guerra si rispecchia nella contemporaneità attraverso un diverso utilizzo delle testimonianze documentarie pubbliche e private. I monumenti ai caduti diventano il mezzo per recuperare le fonti private e personali ancora custodite dalle famiglie. Diari di guerra, cartoline, lettere diventano il pretesto per far affiorare le proprie "radici" in cui pubblico e privato si intrecciano....

• Temi

• Relazioni

Arte e guerra

Sul fronte presero posto anche dei pittori-soldato che ritraevano i luoghi del conflitto con la loro arte. Dipinti e disegni divennero dei "diari" personali in cui i loro pensieri prendevano forma. Ma l'arte fu anche oggetto dell'attività bellica mediante una costante protezione del patrimonio artistico.

• Temi

• Relazioni

Donne e guerra

Durante la Prima Guerra Mondiale si assiste ad un radicale mutamento, anche se già avviato nell'Ottocento, delle funzioni e dell'immagine femminile. Madri, mogli e figlie lavoreranno nelle fabbriche di armi, si occuperanno dei feriti e dei prigionieri di guerra, realizzeranno artigianalmente specifici abiti per i soldati in trincea (guanti, corpetti di lana, calze, ecc.), *scenderanno in campo* anche attraverso la scrittura epistolare che...

Description of the exhibition

Officina Emilia è un'iniziativa culturale dell'università di Modena e Reggio Emilia. Il progetto nasce alla fine degli anni Novanta nel dibattito di ricerca sui temi dell'innovazione e della rigenerazione delle reti di competenze. Nel 2006 la discussione si allarga fino a coinvolgere le altre istituzioni locali impegnate sul tema dell'istruzione e della formazione, la Camera di Commercio, le imprese e le loro associazioni. Obiettivo è realizzare pratiche rivolte al sistema dell'istruzione (dalla scuola materna all'università) e della formazione (dalla formazione iniziale alla formazione continua, alla formazione life long learning e alla formazione degli immigrati).

L'idea originale è che il confronto avvenga mettendo a disposizione non solo idee, ma anche un luogo fisico dove applicarle: un'officina evolutiva delle lavorazioni meccaniche che costituisca un incrocio di esperienze di alto livello e bottega per apprendere come apprendere. Il *muselaboratorio*, come lo abbiamo chiamato, non è solo un museo con pezzi da osservare, toccare e studiare, ma un laboratorio in cui potersi interrogare sul funzionamento delle tecnologie meccaniche, sulle forme organizzative della produzione, sulle relazioni sociali che sostengono i processi di produzione e di innovazione.

Collaborando con scuole, imprese, università, agenzie e centri di ricerca, Officina Emilia promuove una conoscenza attiva del contesto locale attraverso le esperienze didattiche e di orientamento rivolte agli studenti e alle loro famiglie, gli stage multidisciplinari e progetti di tesi per gli studenti universitari e dottorandi, l'aggiornamento dei docenti in servizio e la formazione per quelli che diventeranno docenti.

Attraverso il Centro di Documentazione Officina Emilia mette a disposizione del territorio *documentazione, prodotti multimediali, pubblicazioni, materiale grigio* sulla storia dello sviluppo locale (sviluppo dell'industria e dell'economia locale, sviluppo urbano e trasformazioni del territorio ecc.), sull'economia e sull'industria locale (cataloghi di imprese ecc.) e sui temi affrontati da Officina Emilia.

Officina Emilia mette a disposizione la sede di via Tito Livio per l'organizzazione di eventi coerenti con le finalità del progetto.

Introduction to MOVIO-HUB

Web and mobile app acting as a catalogue of all digital exhibitions realised with CMS MOVIO

Sam H. Minelli (META)

MOVIO-HUB: How To

- **From MOVIO instances to MOVIO HUB**
 - Curators who use MOVIO should update/create a digital exhibition /real exhibition page to be harvested (pagetype: DigitalExhibition or Exhibition)
 - Send a notification to ICCU (just inform that you made it)
 - ICCU will then update and finalize the harvesting into MOVIO Hub
 - Languages: two languages preferred
- **From non-MOVIO web sites to MOVIO HUB**
 - Curators can prepare the minimum information (Title, subtitle, description, images, ...) and send to META

How to prepare your MOVIO instances a digital exhibition

Exhibition title (advice: avoid titles such as 'digital exhibition')
